—The Allen County Agricultural Society hold their annual fair at their fair grounds in this city on the 6th, 7th, 8th, and 9th of October.

—If everybody goes to the centennial exhibition at Philadelphia next year who now talk of it we don't know who will take care of Iola.

—Webb Bostwick has not yet found his cattle. He may probably be stolen. He now offers a reward of fifty dollars for their recovery.

—Our singers are diligently practicing for the concert they intend giving some time next month. Prof. Seife will assist in this concert and all who love good music should be sure to attend.

—The young man who last week escaped from a watery grave in the then raging Elm with the loss of his clothes, (a glowing account of which was given by our local), has since found his clothing.

—Farmers who want to have their wire fences cattle proof should call at Allen's and examine the patent barb he has for wire fences. Cattle will never trouble a fence after these barbs have been put on it.

—Capt. Thrasher left for the west again last Monday. He has gone to assess some lands out near where he was surveying last summer. The work he has to do will require three or four months time.

—At this time almost every county in the State is claiming to have the heaviest corn. Next fall when the premium pieces have been gathered and measured we believe that Allen will make as good a showing as any county in the State.

—We have received the premium list of the Kansas City Exposition. The premiums offered are very liberal, and as we are to have no State Fair this exposition will doubtless be largely attended by the people from this part of our State.

—We publish in another column the proposed amendment to the Constitution of our State which the last Legislature ordered to be submitted to a vote of the people at the general election next October. It is in regard to biennial sessions of the Legislature, a matter of considerable importance. Read it.

—We have received the August number of *Crene de la Crene*, an excellent musical monthly published by J. L. Peters, 843 Broadway, N. Y. All teachers and others interested in music should read the advertisement on the 4th page headed "Singing-Books." When you want anything in the way of music send to J. L. Peters.

—We publish to-day the taxable valuations in the different school districts in the county, as furnished us by our County Clerk. At the school meetings next month this will be valuable, as the people of each district will know just what per cent. to levy for school purposes. The value of the taxable property in the county is considerably less than it was last year.

—As will be seen by the notice from our County Superintendent, the annual district school meetings will be held this year on the 12th of August. These meetings are of great importance to our people and should be well attended. Expenditures for school purposes are among the largest in the State, and every voter and tax payer should take an interest in having this fund properly expended. Full reports should be had from all officers. In these hard times when the people are anxious to economize wherever they can it should be remembered that poor teachers are an expense that cannot be afforded. In employing teachers it is the cheapest to get the best. Better have school six months with good teachers than all the year with poor ones.

IOLA, KANSAS, July 27th, 1875.

The attention of certain postmasters is respectfully called to sections three and five of a recent order of the Postmaster General. Section three reads as follows: "That postmasters be forbidden to use postage stamps, stamped envelopes, newspaper wrappers or postal cards as articles of traffic, or for the discharge of private obligations."

All violations of the above order, coming to my knowledge, will be promptly reported to the department. Merchants and others of Iola who have been unable to secure a sufficient quantity of stamps, etc., without going to the country, will be supplied in large or small quantities, on short notice, by applying at this office.

Col. Anthony's Condition.

The Leavenworth *Times* of Sunday has the following:

It will be eleven weeks, to-morrow night since Col Anthony was wounded. He is still confined to his bed. The wound is healed. The collar-bone has united, and is nearly as strong as ever. The only trouble now, is the aneurismal tumor. It is three weeks, last Friday since compression was begun. This has been constant, with two exceptions of a rest of two days each, when the flesh became inflamed. Compression was again resumed yesterday. The surgeon says the tumor was originally three inches by two and a half inches, and that it has reduced in size until it is now no larger than a small sized almond. He is positive that continued compression of the artery inside the collar-bone, with starvation diet, will effect a permanent cure. The location of the bullet has not been discovered, nor has there been any evidence indicating where it lodged. It is hoped that the next ten days will determine the question favorably. If not, it is plainly evident that the subclavian artery will have to be ligated inside the collar-bone. It is assured that the operation could now be performed with greater ease and safety than at any time previous in the history of the case.

The Liberal Republicans of New York have deferred fixing the time and place for their State Convention, and referred the subject to a committee, consisting of Gen. John Cochrane, the Hon. Benjamin F. Manniere, and Gen. E. A. Morrill, to act upon it, with power in the premises.
